EDUCATION

Virginia Tech <i>Master of Engineering in Computer Science and Applications</i>	Blacksburg, VA <i>Expected May 2027</i>
Virginia Tech <i>Bachelor of Engineering in Computer Science</i>	Blacksburg, VA <i>Expected May 2026</i>

EXPERIENCE

Undergraduate Researcher <i>Virginia Tech, Dr. Luke Achenie's Lab</i>	Aug 2025 – Present <i>Blacksburg, VA</i>
- Developed AI strategies to identify and extract explicit physical equations (e.g., $PV = nRT$, $F = ma$) from unstructured scientific papers and engineering reports. - Leveraged VT ARC supercomputing clusters to fine-tune and benchmark Large Language Models on 10GB+ of specialized STEM datasets. - Synthesized complex research findings into comprehensive 15-page technical reports for archival journal submission and peer review.	

PROJECTS

Voice Age & Gender Classifier <i>Python, PyTorch, ONNX, Flask, Librosa</i>
- Engineered a Deep Learning system trained on the Mozilla Common Voice dataset for speaker classification. - Designed a CNN architecture for MFCC feature extraction, achieving 87% age and 99% gender accuracy. - Deployed model via ONNX and Flask to minimize inference latency for web-based audio processing.
Cratetests (SaaS) <i>Next.js, Firebase, OpenAI API, Stripe</i>
- Developed an EdTech platform using fine-tuned GPT-4o-mini to generate study materials from user documents. - Integrated secure payment processing via Stripe and scaled to a paid user base at cratetests.com.
2D Isometric Game Engine <i>Java, Swing, AWT</i>
- Architected a custom 2D isometric rendering engine featuring optimized tile-based z-ordering. - Engineered an efficient pipeline managing 500+ active entities while maintaining a consistent 60 FPS.
Application Usage Monitor <i>C, Win32 API, JavaScript, Chart.js</i>
- Built a Win32 system utility in C to track application persistence with high-resolution kernel timers. - Developed a local REST server to transmit JSON telemetry to a dashboard with interactive visualizations.

LEADERSHIP & ACTIVITIES

Fraternity Executive Board Member <i>Kappa Alpha Epsilon Eta Chapter</i>	Nov 2024 – Nov 2025 <i>Blacksburg, VA</i>
Directed logistics/budgets for a 50+ member organization and managed safety risk-mitigation protocols.	
Varsity Soccer Captain <i>Thomas Jefferson High School</i>	Jan 2021 – Jun 2023 <i>Richmond, VA</i>
Coordinated team strategy and tactical drills, fostering high-performance team culture and accountability.	

TECHNICAL SKILLS

Languages: Python, Java, C/C++, Swift, JavaScript, SQL, Rust, Go, GDScript
Tools: PyTorch, ONNX, Flask, React, Next.js, Firebase, Win32 API, Git, Linux, HPC/ARC
